New Zealand

Dear Sir or Madame,

I am writing with a reference to your advertisement on the internet on webpage [//www.praca.org/](http://www.praca.org/) I am interested in applying for a position with your hospital.

I think, that your hospital without me is like computer without CPU or like human body without a brain. So, I think, that from this statement you know, that I want to lead your hospital with an iron hand of browbeater, because I think that It is nessary ( I have got experience with leading in a hospital. ) I hope, that I argue you about indispensableness of mine.

Yours Faithfully,

MUDr. Jakub Jamrich, PhD.
